LOOK
FOR THE SIGN OF THE BLUE BELL

Wherever you are, away from home—whomever you want to call—you're pretty sure to find a Public Telephone handy. Want to let the folks know you'll be a little late getting home from an afternoon's shopping? Have to check the office to see if there are any messages for you? Just look for the familiar sign of the Blue Bell.

Always wait for the
"DIAL TONE"

It is like the
green light on
the highway

– it tells when it's O.K. to go ahead.

The Dial Tone on your telephone is your signal to go ahead and dial your number. If you dial *before* you hear it, you'll get a wrong number or no number at all—and you'll have to dial again.

Should the Dial Tone be slow in coming, it means your central office's switchboard is carrying a heavy load. If convenient, please wait until later before making other calls.
